

# The Human is the loop: Lessons in deploying AI in the wild

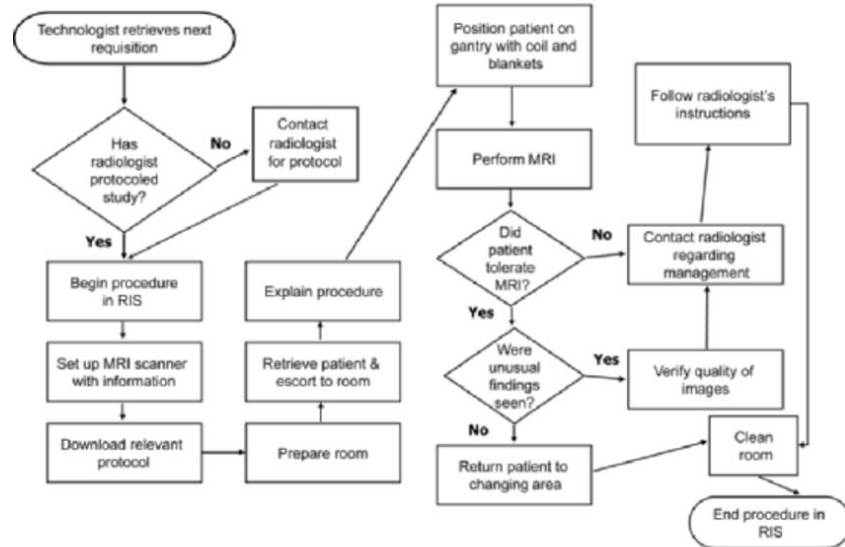

# Errors in Radiology: Type 1 or 2?

- Type 1 - Cost Implications, over diagnosis.
  
- Type 2 - Where the trouble is.

a.

b.

# The other humans in the Loop – users

- How?

- Who?

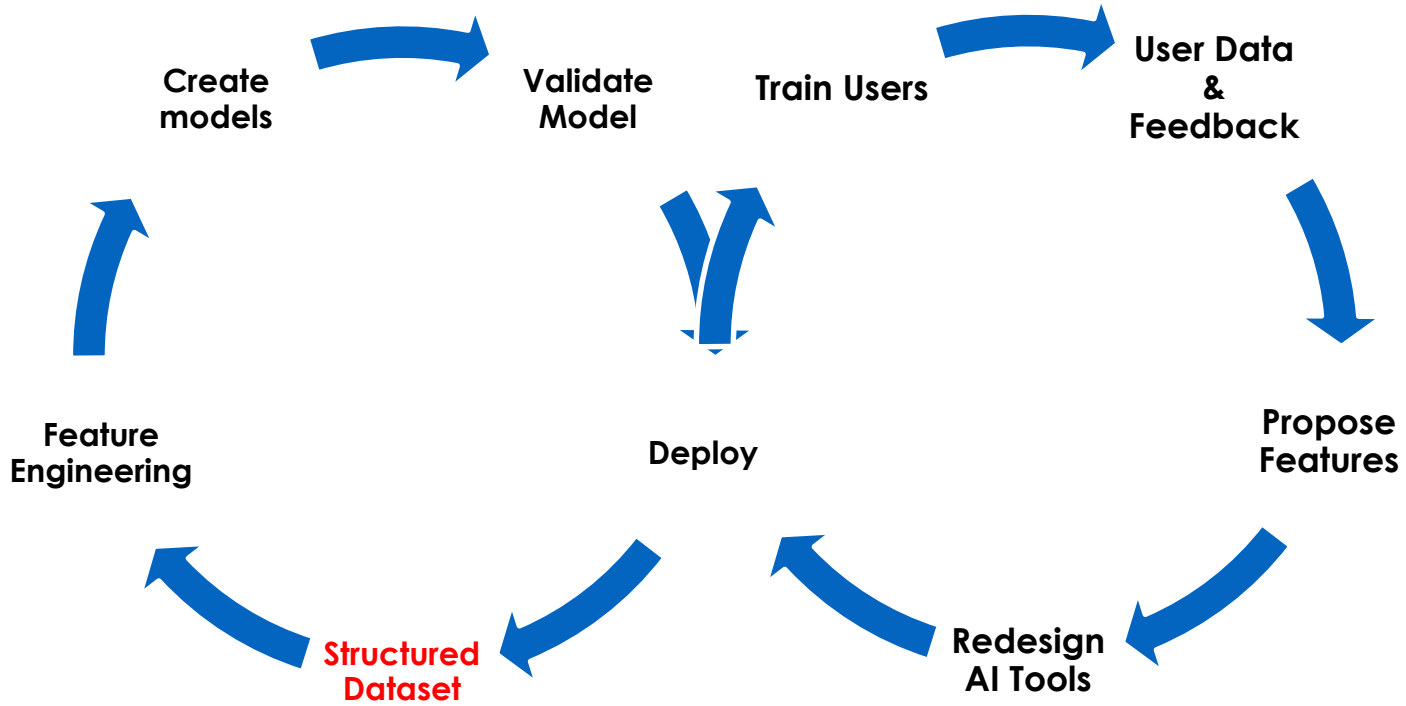

- When?

- Where?

- Why?

# Training

# Deployment

# The Myth of the Structured Dataset

- At hospital-scale, classification is a massive undertaking
- Annotation is even worse
- The alternatives are decidedly undesirable

# How to totally avoid human contact
