GENERAL SERVICE TERMS

The above Services are either delivered directly by NVIDIA, or in certain jurisdictions certain Services are available from and delivered by a NVIDIA agent under these terms and conditions; except that these terms and conditions do not apply to Installation Services for Products that you purchase from an NVIDIA authorized service provider. NVIDIA and its authorized service providers will have access to your information (including in the online support portal) and will exchange information to fulfill and optimize the delivery of Services.

Services are non-transferable, non-assignable and your Services are terminated when the Product is transferred to another party.

NVIDIA will use commercially reasonable efforts to analyze each potential technical support issue filed to determine if it qualifies for service and will issue a response. Resolution of a qualified Product technical issue may be achieved with hardware or software, or workarounds, or other mitigation or decision to close an open issue. NVIDIA reserves the right to change your case priority based on NVIDIA's assessment of the severity of the issue.

Note 1: You are deemed to have purchased a replacement Product or part after ten (10) days from its delivery, unless you (i) tender to the carrier in the NVIDIA provided package the replaced Product or part within ten (10) days of replacement delivery, or (ii) you receive from NVIDIA a written extension of the ten (10) days period or a waiver of the obligation to return the replaced Product or part. For each additional purchase, an invoice will be issued to you from NVIDIA or a Reseller for payment of the replacement Product or part delivered based on the price stated in the NVIDIA then current price list at the time of replacement delivery. With the shipment of a replacement Product or part under these terms and conditions, you will receive the return label, package and instructions to return the replaced Product or part. In certain jurisdictions RMA Services may be delivered by a NVIDIA agent.

Note 2: The Support Services identified above as subject to this note are only available in limited geographical locations, as updated by NVIDIA from time to time in its sole discretion. The unavailability of this Support Service in your location does not make you eligible for any discounts, credits or refunds to the price paid for the Support Services plan.

The optional Services listed above, namely 4-hr RMA Services, NCSS and SRE are only available to select parties upon approval from NVIDIA at its sole discretion and are add-on Services. Only Products that are under a valid contract for Standard Support, Business Critical Support or Business Critical Plus Support will qualify for the optional Services, and further Premium TAM services are a pre-requisite to obtaining SRE. No credits or refunds will be provided for any gaps in the provision of optional Services purchased under these terms and conditions if the related required Services or Premium TAM services expire or terminate.

As part of these Services NVIDIA may deliver to you diagnostics software which is licensed under the terms of the end user license agreement ("EULA") for the Product. Supported Software Service Subscriptions are subject to the terms of the EULA. The NVIDIA GPU Cloud services and content are subject to the terms of the licenses indicated in the NVIDIA GPU Cloud website. Capitalized terms used but not defined herein will have the meaning assigned to them in the EULA.

While NVIDIA will strive to deliver the Services as described above, NVIDIA will be excused from delays or non-performance due to reasons beyond NVIDIA's reasonable control.
